My name is Clem, I'll pop up throughout your course, mostly on our website, to give you some pointers to help you achieve your potential over the next few years.

Try to make sure you keep on top of your work, homework and assessments so you know exactly where you are and where you need to be

# Welcome to GCSE:

Thank you for choosing GCSE History, we are sure you will find this course interesting, rewarding, challenging and fun!

Inside this booklet you will find a range of useful and important information that will support you as you go through your GCSE, you should use this in conjunction with our website [www.stchistory.com](http://www.stchistory.com) and information given to you in class.

To succeed at History, you will need a positive ATL and an enquiring mind. *Independent learning* is also vitally important

## So, what will you study at GCSE:

- You will build on the key skills you were introduced to in KS3 (Analysis, interpretations, Evaluating, Source work and communication)
- You will also understand key concepts in History that allow us to find out about the past and more importantly, make sense of the past eg Change & Continuity, Similarities, Differences, Significance, Cause & Consequence
- The 5 topics you will learn on this course are:

**Medicine Through Time (1250-Modern times)**

**British Sector of the Western Front (WWI Trench Warfare)**

**Elizabethan**

**England Nazi**

**Germany Cold War**

## Sources for use with Section A.

**Source A:** From an account by Reverend Leonard Pearson, who was the army chaplain at Casualty Clearing Station 44 during the Battle of the Somme (1916).

I spent most of my time giving anaesthetics. I had no right to be doing this because I had no medical qualifications, but we were simply so rushed. We couldn't get the wounded into the hospital quickly enough and the journey from the battlefield was simply terrible for these poor lads. It was a question of operating as quickly as possible. If they had to wait their turn in the normal way, until the surgeon was able to perform the operation with a doctor giving the anaesthetic, it would have been too late for many of them. As it was, many died. We all simply had to help and do anything that was needed.

**Source B:** From the diary of Oswald Robertson, written on 30 November 1917. He was an army surgeon working on the Western Front during the First World War.

Men were horribly mutilated – many were dying when brought into the ward. All the beds were full and we began putting stretchers on the floor. Blood everywhere – clothes soaked in blood, pools of blood in the stretchers, streams of blood dropping from the stretchers to the floor. My rubber apron was one solid red smear. All we could do was try to stop the bleeding and get the patients as comfortable as possible. I could only transfuse an occasional patient. The majority had to take their chance and go through the operation as best they could.

Answer both questions.

Study Source A below and then answer Question 1.

**Source A:** From *Hitler and I*, by Otto Strasser, published in 1940. Strasser was a leading member of the Nazi Party in its early years. Here he remembers a conversation with Hitler in 1925.

I remember one of my first conversations with him. It was nearly a quarrel. 'Power!' screamed Adolf. 'We must have power!'

'Before we gain it,' I replied firmly, 'let us decide what we propose to do with it. Our programme is too vague; we must construct something which will last.'

Hitler, who even then could hardly bear contradiction, thumped the table, saying sharply, 'Power first! Afterwards we can act as events occur.'

**Paper 3: Germany – 1 hr 20 Minutes**

# Example Exam Papers:

**Source B:** From a private letter, written by a Hitler Youth member to a friend in Germany in 1936.

What is life like in this camp, which is supposed to be the best example of all the Hitler Youth camps? There is little enthusiasm. We don't have a minute of the day to ourselves. This isn't camp life, no sir! It's army life. Drill starts right after a very small breakfast. We would like to have athletics but there isn't any. Instead we have military exercises, down in the mud, till our tongues hang out of our mouths. We have only one wish: sleep, sleep and more sleep.

**Source C:** From a book about the Hitler Youth, published in 1954. A Hitler Youth leader is remembering what the Hitler Youth was like in the mid-1930s.

What I liked about the Hitler Youth was the comradeship. I was full of enthusiasm when I joined the *Jungvolk*\* at the age of ten. I can still remember how deeply moved I was when I heard the club mottoes: '*Jungvolk* are hard. They can keep a secret. They are loyal. They are comrades.' And then there were the trips, especially camping! Is anything nicer than enjoying the beauty of the homeland in the company of one's comrades?

\**Jungvolk* – this was a section of the Hitler Youth for boys between the ages of 10 and 14.

**Interpretation 1:** From *Germany 1918–45* by J Cloake, published in 1997.

Many young people were attracted by the exciting and interesting activities of the youth movements. There were many outdoor events such as camping and hiking as well as sports. Some enjoyed the military aspects of the youth movements, the uniforms, the marching and the discipline. Other young people liked the music that was a frequent part of cultural activities or the military parades. There was great comradeship among the Hitler Youth.

**Interpretation 2:** From *Germany 1858–1990: Hope, Terror and Revival* by A Kitson, published in 2001.

The movement became less popular towards the late 1930s as the activities became increasingly focused on preparations for war and the discipline became more strict when membership became compulsory. There was a growing resentment at the way Hitler Youth leaders acted as if they were better than members who were barely younger than they were. Some youngsters began to kick against the restrictions of the Hitler Youth.

						4.00–	
						5.00	
						5.00–	
						6.00	
						6.00–	
						7.00	
						7.00–	
						8.00	
						8.00–	
						9.00	

**Rules:**  
Maximum 3 sessions a night, 1 should include Homework if you have any and 1 could include an official revision session after school between 3.00-4.00ish. Weekends should be well organised, don't forget your free time too! Each session should last approx. 40 minutes!

Download a blank timetable from the 'Revision Zone' of our website and organise yourselves sooner rather than later. It will be really helpful to get into a routine before Christmas.

# Revision Guidance:

## Revision Tips

Don't forget your exercise books should always be the first place you look when revising.

### What to revise?

Get a copy of your syllabus / topics. Ask your teachers if you haven't been given one! Don't waste time learning stuff you don't need to know! Create a module mat similar to the one below with a ☺ and a ☹ before you start revising so you don't waste time revising what you already know well!

Edexcel B: SHP Unit 1A - Paper 1 (5 Questions - 1hr 15mins) Medicine & Public Health

Name:	Class:	Teacher:	Exam Date:
			Comments
<b>Greek background</b>			
Greek: Four Humours			
Hippocrates		Logic and observation	
Supernatural & Logical		Greeks began challenging supernatural	
<b>Rome &amp; Italy</b>			
Crucial to Rome			
The Roman Empire		New ideas, cures, treatments, influences and money	
Military hospitals			
Quarantines		New injuries	
Quar			
Theory of the Opposites		Compared to Greek Four Humours	
Public health		Sanitation - Aqueducts, Sewers, Water supplies etc...	

### DO's...

- Plan your revision (Use the blank timetable also on our website) and stick to it!
- Have lots of breaks in between sessions
- Mix up your revision - Reading, watching clips, playing etc...
- Teach people at home!
- Diagrams as well as notes will help - particularly with "thought showers"
- Revise with a friend
- Work through past exam papers
- Use the internet - especially YouTube
- ASK your teachers for help!
- Eat & drink regularly

### DON'T's...

- Work longer than 40 minutes per session
- JUST read books / notes
- Cram the night before (especially important for GCSE's)
- Let revision get boring
- Forget your discipline, when you've spent 40 minutes, STOP!
- Wait until you're close to the date - revision should start as soon as possible, no later than 2-3 weeks before exam date!
- Revise too late at night!
- Keep your mobile phone with you!
- Forget your FUN time!

If your teachers are offering revision classes (keep checking the website or your classrooms), note the times and make sure you go!

# Revision Guidance:

**Post it Notes** – Stick these all over the house, your bedroom and the fridge – **WHEREVER** you will see them frequently! You will learn by osmosis (naturally take it in).

**Flash cards** – On one side of the card write the question, on the other write the answer! Leave these by the kettle or the phone and every now and then have a little quiz.

Make a rap, song up to your favourite tunes changing the words to your subjects.

## Where to revise?

Try to find somewhere where you won't be disturbed. If you can work with music on, this can help you relax. It can also drown out noises around you. De-clutter your desk, just have what you need! Have plenty of scrap paper handy.

If you're using the web to revise, make sure you know what you want to improve on *before* you start and do not get distracted by anything else!

- Facebook / Twitter can be useful – See if your subject has a Twitter or Facebook page to ask questions and get replies as well as answer your friends questions too

## When to revise?

When you have had your dinner and have no more distractions is useful, as well as before you go home when you're in "school mode" – there are plenty of empty classrooms or teachers staying behind too!

**Make sure you have FUN time!**  
Football training, Basketball, Hockey, Horse riding, walking the dog etc...
