Revision Tips

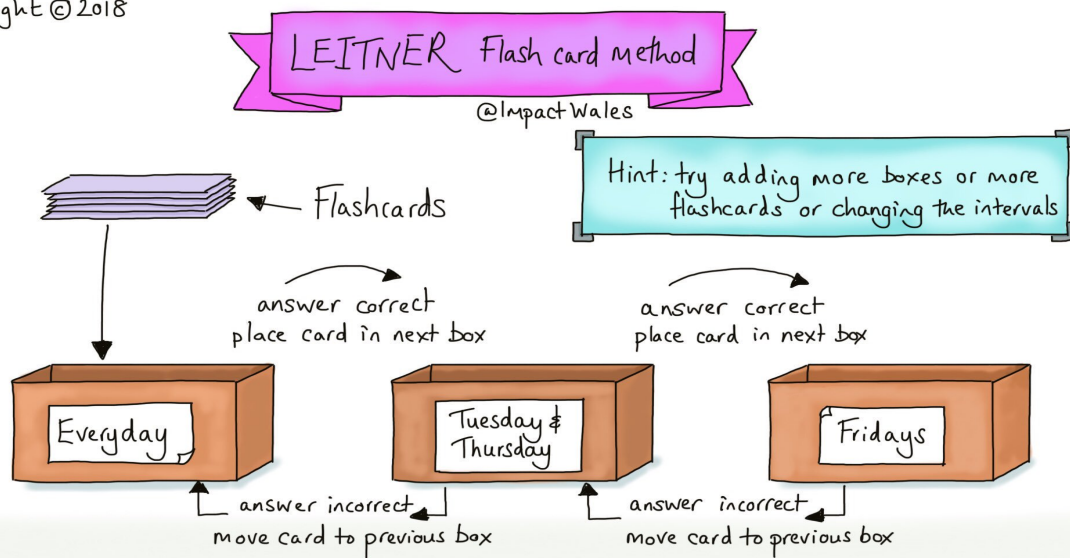

1. **Start early**- give yourself the most time possible to revise.
2. **Plan your revision**- use the revision timetable below.
3. **Get the basics right**- make sure you are eating healthily, drinking plenty of water, exercising and getting a good night's sleep
4. **Remove distractions**- place your phone in a draw or another room.
5. **Short sessions**- keep sessions to 25 minutes, followed by 5 minute breaks.
6. **Break topics down** into bite-size chunks.
7. **Repetition**- the more times you revise a topic, the more likely you are to remember it.

Revision Techniques

Flash cards & Spaced learning

1. Use your notes or your textbook to identify key concepts in the material. On one side of a flashcard, write the keyword. On the back of the flashcard, write the definition.
2. Complete retrieval practice by reading the key word on one side, and trying to recall the definition.

An effective use of flashcards to prompt & recall learning using spaced practice proposed by Leitner in the 1970s. It focuses on the proficiency of recall of the learner. Information which is easily recalled has a longer time lapse before the next recall opportunity.
