

GCSE English

GCSE English Language and GCSE English Literature

To support your child's study this year, we strongly recommend purchasing the set texts and relevant study guides for English Literature and English Language. These resources will support revision and can be used at home to aid consolidation of learning within lessons.

Independent Study: It is now essential that all pupils should begin independent revision ahead of the summer exams. For Language, pupils should be reading as many fiction and nonfiction extracts as possible and thinking about the language and structural choices made by the writers. We have hints and tips on the St. Clement's Facebook page and there is support offered on online revision webpages, such as those below. Also keep an eye on SMHW for revision suggestions and resources.
