

Academic Transition

Each Head of Department is incredibly passionate about their subject and many have created tasks or challenges to inspire and prepare you for your next phase of education at St Clement's High School.

Please bring your completed tasks with you for your first lessons;

- English (Reading in Strange Places)
- Science (Academic Transition Booklet)
- Drama (Academic Transition Booklet)
- Design Technology (A completed challenge from the sheet)
- Mathematics (Proof that Math is Everywhere)

Further to the above, included in this pack you will find, optional tasks and additional reading to complete if you wish.

Enclosed you will find a map of our School. To help you become more familiar with your new surroundings use this and the School website (virtual map). **Do not** panic, about getting lost, there are lots of students and staff willing to help you

Have a look for your tutor's profile. This gives you a bit of information about them ahead of September

Bridges (2014) says "Many of our revered celebrities and leaders are avid readers. Indeed, it's hard to find successful people who aren't!" We hope you enjoying reading? Check out the two reading lists enclosed to help guide you

We hope you enjoy completing them

Mrs Towle and Mrs Cawston
