

Challenge

fog=fluorine and oganesson
cob=cobalt ,oxygen and baron

tiny=titanium, nitrogen and yttrium

hob=hydrogen,oxygen and baron

hop=hydrogen,oxygen and phosphorus

tin=thallium and nitrogen

fat=fluorine and astatine

moat=molybdenum and astatine

boat=baron,oxygen and astatine

cat=carbon and astatine

coy=cobalt and yttrium

Boy=baron,oxygen and yttrium

sir=sulfur and iridium

sick=silicon,carbon and potassium

tab=tantalum and baron

sip=silicon and phosphorus

sin=silicon and nitrogen

son=sulfur,oxygen and nitrogen

bin=baron and indium

ten=tellurium and nitrogen

gen=germanium and nitrogen

fine=fluorine,iodine and neon

ben=beryllium and nitrogen

line=lithium and neon

back=barium,carbon and potassium

cop=carbon,oxygen and phosphorus

nap=sodium and phosphorus (38)

in=iodine and nitrogen

cup=copper and phosphorus

pin=phosphorus and indium

tan=tantalum and nitrogen

mob=molybdenum and baron

bacon=boron,actinium,oxygen and nitrogen

bun=baron,uranium and nitrogen

fun=fluorine,uranium and nitrogen

pond=phosphorous,oxygen and neodymium

pots=phosphorous,oxygen and tennesine

late=lanthanum,tellurium

silk=silicon,iodine and potassium

candy=calcium,neodymium and yttrium

can=calcium and nitrogen

you=yttrium,oxygen and uranium

Ham=hydrogen and americium

Pace=protactinium and cerium

Ink=indium and potassium

boy=baron,oxygen and yttrium

vote=vanadium,oxygen and tellurium

tip=thallium and phosphorous

bite=baron,iodine and tellurium

tip=thallium and phosphorous

bite=baron,iodine and tellurium

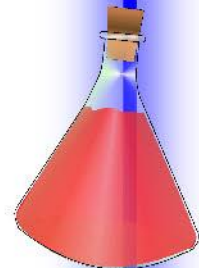

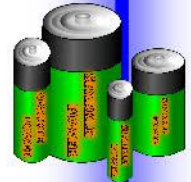

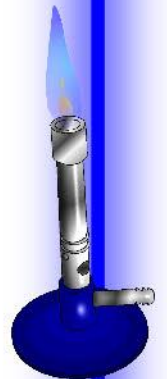

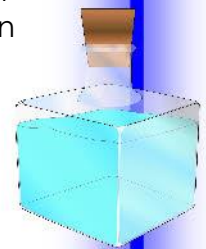

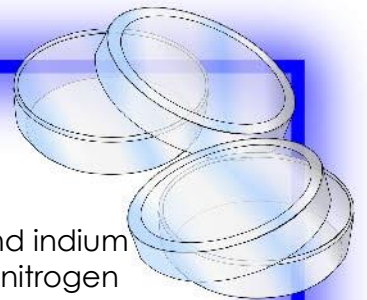

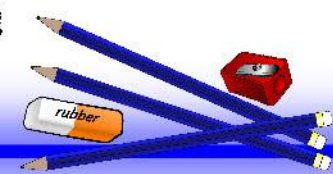

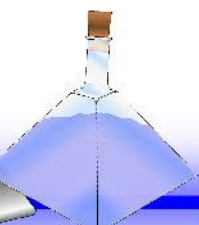

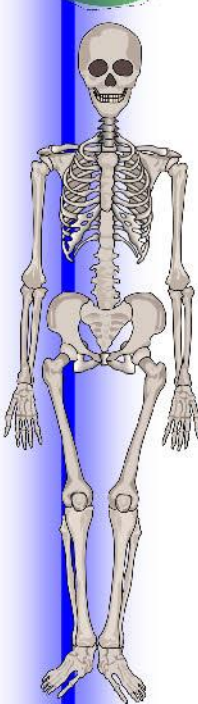

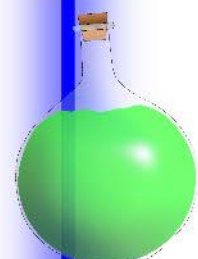

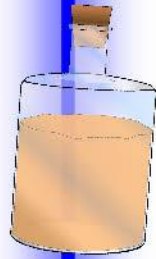

tip=thallium and phosphorous

bite=baron,iodine and tellurium

tip=thallium and phosphorous

bite=baron,iodine and tellurium

tip=thallium and phosphorous

A small selection of the words Chloe provided in a challenge set by the Science department to use the Periodic Table. Well Done Chloe!!
