- Style of presentation

A request.....

Notes to Y6 students currently thinking about starting at St Clement's

Please submit as private conversation on Google Classroom. You could include things such as..

- Your concerns
- Best bits
- Bits that you still find tricky
- What staff are actually like
- Homework
- Sports Clubs

Just a
little note
to say . . .

Your next challenge....

- The average Briton uses 100 toilet rolls annually.
- Britons may use 183,000 miles of toilet paper every day, enough to circle the globe 11 times, but it doesn't have to be that way.

Toilet Roll Challenge

WARNING! You will need help from family members!

- You need someone to throw the toilet roll to you from the right and you catch it then throw it out of the video to the left (as if you are looking at the camera).
- The toilet roll can interrupt you (stop you from reading, jumping on your trampoline, baking, doing your school work) OR you can simply just stand and face the camera.
- We will then create a Y8 Lockdown Toilet Roll Video to play back during your leavers assembly.

To help explain what I mean, I got a little help from my friends.....

St Clement's Toilet Roll Challenge

(VIDEO SHOWN DURING ASSEMBLY – if
you are still unsure what I mean, please
email me).

Mrs Cawston's Challenge

You will be added to a virtual classroom, any challenge you complete please let Mrs Cawston know through this platform. You could comment on what you did/how it made you feel, or simply add a photo.

Good Luck!!
