

WEST NORFOLK ACADEMIES TRUST: MUSIC DEVELOPMENT PLAN 2025-26

Our Vision:

Music is fundamental to being a human-being. It incorporates expression and creativity whilst developing key life skills such as teamwork and cooperation and, across the West Norfolk Academies Trust, the subject is one that is valued and embraced for student development, both academically, culturally and socially (The 'Whole Child').

Music is commonly described as "The universal language" and this is because it is central to almost all cultures and religions throughout the world. Music is all around us, not just on the radio, in the concert halls and at festivals but also in all television and films, adverts and even as background music within shops and restaurants. It is literally everywhere!

However, Music in education is about so much more than Rock, Pop, Classical RAP etc. Music is about sounds and how they are put together.

Music is one of the most vibrant departments in our schools. It is very rare not to hear music being rehearsed and performed before and after school as well at break and lunch throughout the department area. In classroom lessons, it is about exploring all the types of Music, learning to appreciate how they are created and performed as well as experimenting through practical exercises both on instruments and using Technology. In line with the National Curriculum all our units of work fall into one or more of the following categories: -

- Performing
- Composing
- Listening and Appraising

Singing and Listening Exercises are an integral part of lessons at Key Stage 3 developing both musical and confidence skills.

Away from the classroom the West Norfolk Academies Trust provides an instrumental and singing programme that is second to none with a range of lessons, schemes and subsidies available to our students to start their journey as musicians. We then promote a culture of group playing with a range of instrumental and vocal ensembles at individual schools, across the trust and in the wider community. This gives clear progression routes for all our students to explore, and improve their musicianship skills, whether they wish to follow music as a career, or want to enjoy it as a hobby.

Music is a unique subject in that it is scientifically proven to assist in so many areas including improved Wellbeing, Language Abilities, Emotional Resilience and Empathy. It involves working both independently and collaboratively in groups and this helps develop important life-skills that are transferred into all future careers and pathways. These develop a growth mind-set as well as social skills and self-esteem.

i. Primary and Secondaries are all subject to a minimum of 1-hour Music Curriculum across EYFS – KS3 with an offer beyond for KS4 in all secondaries and KS5 at the Trust Sixth Form Centre (Springwood). ii. Curriculum EYFS-KS3 is fully sequenced giving a broad range of musical skills utilising Charanga within Primary Settings and an agreed curriculum across all four Secondaries. However, the transition between primary and secondary curriculums is limited. iii. However, Insufficient formal teaching of composition techniques at Key Stage 3 result in challenges at Key Stage 4.	i. Time in all schools maintained with all schools offering GCSE Music. Increase in KS4 take-up to numbers in excess of national average (5.4% in 2022) across all secondaries. ii. Curriculum to follow seamlessly from KS2 to KS3 especially for WNAT students. Good understanding of all primary music curriculums. iii. All secondary students have some skill in formal composition utilising the elements of music & staff notation.	i. Changes implemented into Year 9 Curriculum, Review impact on students opinion of the subject as a GCSE option going forward through Student Voice etc. ii. Investigate the possibilities of a trust transition unit, SOL, between primary and secondary - perhaps post SATS, to ensure a smooth curriculum journey from KS2 to KS3. Some training of primary staff will be required. iii. All schools to have appropriate composition software. Review for opportunities within curriculum where this can be introduced and revisited a couple of times per year to build compositional skills.	Half Term 6 (May 2026) Ongoing throughout year.	RN	ii. Curriculum journey will be fully mapped and students will all be in a similar position ahead of their entry into KS3 at secondary. iii. More interest in KS4 - students have less worries about continuing with Music at GCSE. Students find more success at GCSE music in composition area - which is worth 30% of their qualification. All schools give feedback to singing and quality of singing improves eg high quality singing at all school at the heart of the curriculum	v. Sharing good practice with teachers coming across to Springwood to see good practice and then introduce them at their schools.	Ongoing throughout year	RN and all HoDs	V. Students across the Trust have a love of singing and are given significant opportunities to explore this. Other health benefits too. <p>Secondaries (<i>Springwood is a Certified Steinberg Centre</i>)</p> <p>v. Inconsistencies across trust schools in the teaching of singing at individual schools. Best practice seen at Springwood where areas of development are identified to students with improvements made based on targets eg. improving vowel sounds. At some schools, there is limited, if any, feedback.</p>								
<p>vi. Schools consider all SEND to encourage inclusion.</p> <p>vii. Provision has inconsistencies and against national plan, weaknesses are especially apparent in Equipment (adapted instruments) and Teaching strategies (especially those with autistic students).</p>	<p>viii.
